About us

WHO WE ARE

DVCONSULTING is an independent, global business solutions provider. Since 2009, we're committed to improving our clients' business performance.

OUR PURPOSE

To ensure sustainable responses through thoughtful analysis. Understanding customer needs and exceeding expectations drives us.

OUR APPROACH

We deliver tailored solutions with measurable impacts. Strategic thinking paired with tactical execution is our foundation.

Our Mission

We provide worldwide support through services that promote strategic objectives. Our solutions deliver productivity gains and organizational achievements.

Global Excellence

Strategic leadership through innovative solutions

Value Creation

Generating measurable business advantages

Productivity Enhancement

Optimizing operations for maximum efficiency

Stakeholder Success

Ensuring benefits for all involved parties

Our Core Values

Commitment

We stand by our promises and deliver results that exceed expectations.

Quality

Excellence in every aspect of our work defines our approach to service delivery.

Passion for Improvement

Continuous enhancement drives innovation in all our solutions.

Responsibility

Social and environmental consciousness guides our business practices.

Our Advantage

Recognition

Industry-acknowledged expertise and proven methodologies

Global Knowledge Sharing

International best practices adapted to local contexts

Expert Consultants

Highly qualified professionals with specialized experience

Tailored Solutions

Customized approaches designed for your specific challenges

Efficient Processes

Streamlined procedures ensuring rapid implementation

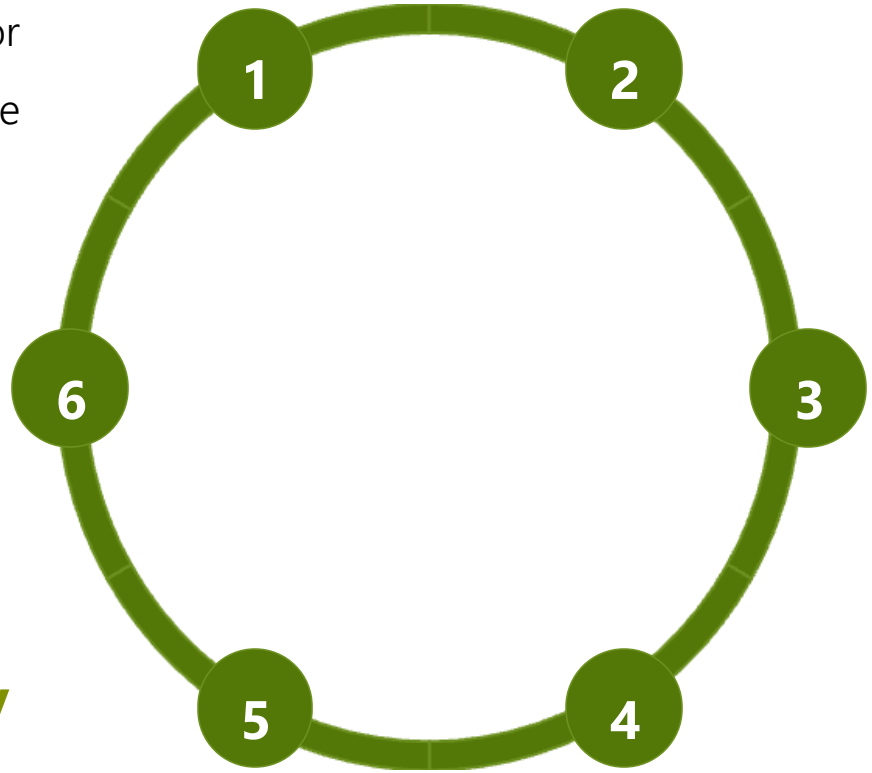
Our Expertise Areas

Management Systems

Comprehensive frameworks for operational excellence and compliance

Environmental

Sustainable practices and regulatory compliance solutions



Energy

Efficiency optimization and sustainable solutions

Health & Safety

Risk assessment and workplace safety protocols

IT Security

Digital protection and business continuity planning

Food Safety

Standards implementation and quality assurance

What we do

Our Services & Products

"your competitiveness, our commitment"

Services – Consulting, Auditing and Training

Quality

Ensuring compliance with international standards and best practices to enhance product and service quality. Our solutions help businesses achieve certifications like ISO 9001, optimize processes, and improve customer satisfaction.

Food Safety

Providing expertise in food safety management systems such as ISO 22000, HACCP, and BRCGS. We help organizations mitigate risks, comply with regulations, and ensure safe food handling, storage, and distribution.

Information Technology

Supporting businesses in implementing IT governance, cybersecurity, and data protection measures. Our services align with standards like ISO 27001, ISO20000, ISO42001 to safeguard digital assets and maintain compliance with industry regulations.

Business Continuity

Developing strategies to ensure operational resilience and minimize disruptions. We assist organizations in achieving ISO 22301 certification, preparing for unforeseen events, and maintaining seamless business operations.

Services – Consulting, Auditing and Training

Environment

Helping organizations implement sustainable practices and comply with environmental regulations. Our solutions support ISO 14001 certification, carbon footprint reduction, and eco-friendly business operations.

Health & Safety

Ensuring workplace safety by implementing ISO 45001 and other industry best practices. We help organizations create safer work environments, reduce occupational hazards, and comply with legal requirements.

Energy

Supporting energy efficiency initiatives through ISO 50001 certification and sustainability programs. Our services help businesses optimize energy use, reduce costs, and contribute to a greener future.

Laboratories

Providing guidance for laboratory accreditation under ISO/IEC 17025. We assist in quality assurance, testing accuracy, and compliance with international standards to enhance credibility and reliability.

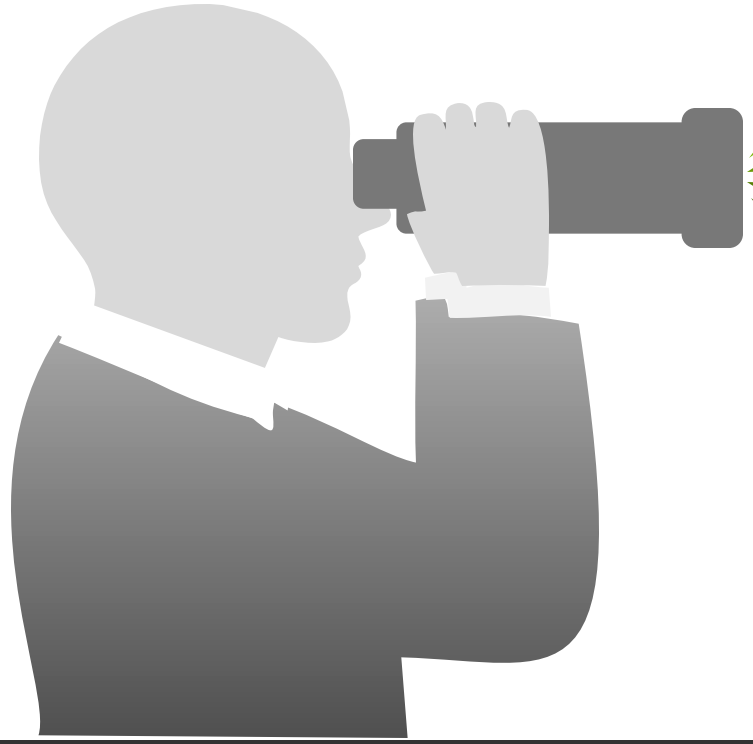
Services Focus

"your competitiveness, our commitment"

www.dvconsulting.pt

Services Focus

ISO27001 Information Technology



Expertise
Establishes a framework for information security management, ensuring confidentiality, integrity, and availability of data. Helps organizations implement best practices for securing IT assets and mitigating cyber threats.

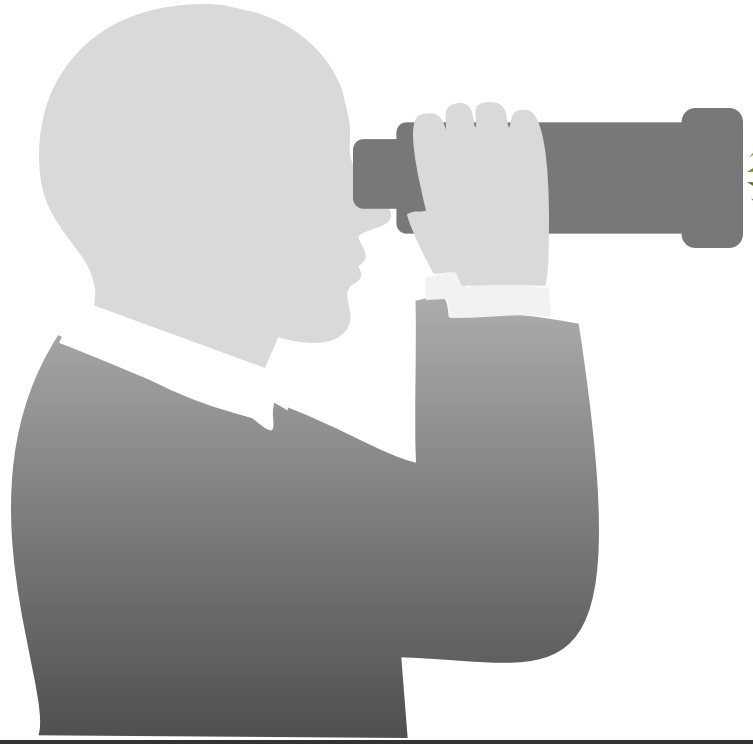
Risk Management & Compliance
Identifies, assesses, and mitigates information security risks in alignment with industry regulations. Ensures compliance with legal requirements such as GDPR, HIPAA, and other data protection laws.

Cybersecurity & Data Protection
Implements security controls to protect against cyber threats, data breaches, and unauthorized access. Includes encryption, access control, and monitoring solutions to safeguard sensitive information.

IT Continuity & Incident Response
Establishes a structured approach for responding to security incidents and minimizing operational disruptions. Ensures continuous improvement through regular audits, testing, and security awareness training.

Services Focus

ISO22301 Business Continuity



Expertise
Establishes a structured framework for business continuity and organizational resilience. Helps organizations prepare for, respond to, and recover from disruptions effectively.

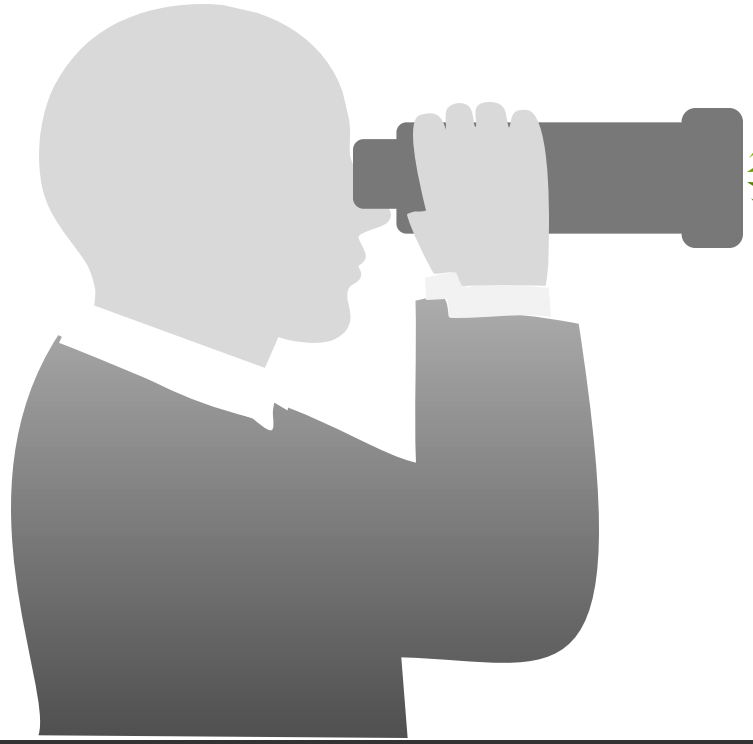
Disruption Response
Ensures a proactive approach to managing unexpected disruptions, minimizing operational impact. Develops structured response protocols for handling crises, cyber incidents, and natural disasters.

Risk Mitigation
Identifies vulnerabilities in operations and supply chains to prevent business disruptions. Implements preventive controls and risk-reduction strategies to enhance resilience.

Operational Recovery
Establishes recovery plans to restore critical business functions in a timely manner. Implements testing, training, and continuous improvement to strengthen recovery strategies.

Services Focus

ISO20000 IT Service Management



Expertise
Establishes a structured framework for managing IT services efficiently and effectively. Aligns IT service management processes with business objectives and customer needs.

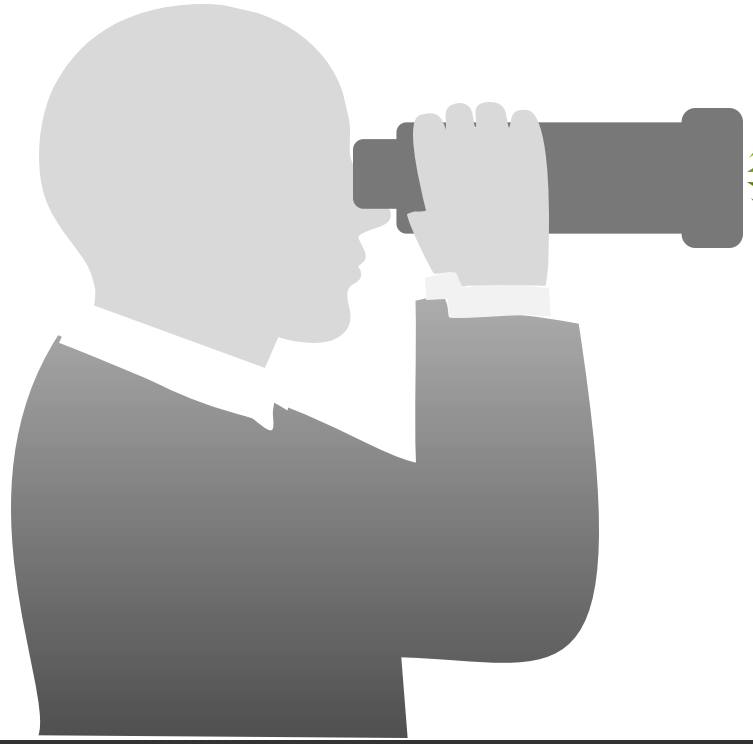
Service Design & Delivery
Defines requirements for designing, transitioning, and delivering IT services to meet agreed-upon service levels. Ensures seamless service integration, minimizing disruptions and enhancing user experience.

Performance Monitoring & Improvement
Implements metrics and key performance indicators (KPIs) to track service quality and efficiency. Supports continual improvement by identifying areas for optimization and process enhancement.

Compliance & Risk Management
Ensures IT services comply with industry regulations and best practices. Reduces risks related to IT service failures, cybersecurity threats, and service disruptions.

Services Focus

ISO42001 Artificial Intelligence



Expertise
Establishes a framework for managing AI systems responsibly, ensuring transparency, accountability, and fairness. Helps organizations develop ethical AI governance aligned with regulatory and industry standards.

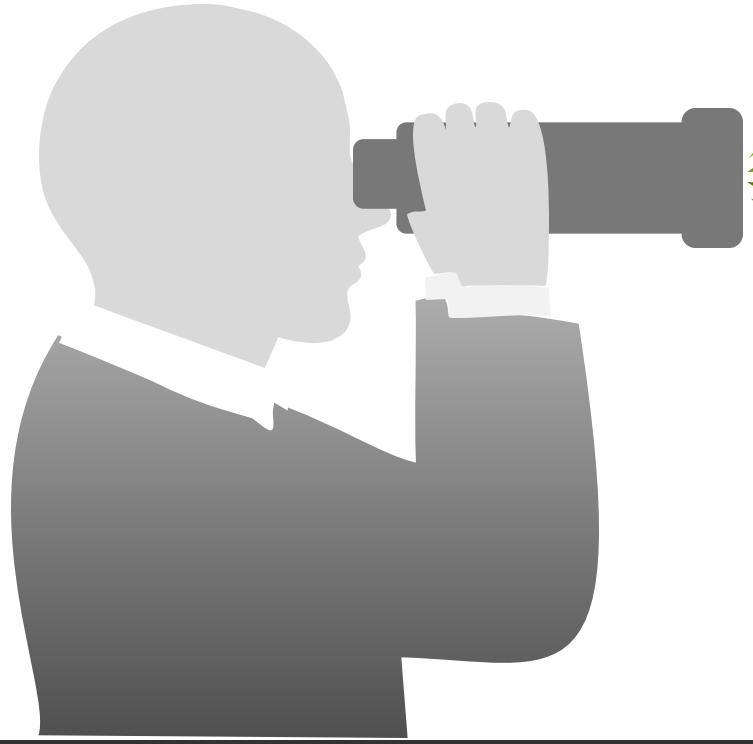
Risk & Compliance
Identifies and mitigates risks related to AI bias, security vulnerabilities, and ethical concerns. Ensures AI operations comply with legal and regulatory frameworks, such as GDPR and industry-specific policies.

AI Transparency & Explainability
Implements mechanisms to enhance AI decision-making transparency and fairness. Requires clear documentation of AI models, algorithms, and data sources for accountability.

Continuous Monitoring & Improvement
Establishes performance tracking and auditing mechanisms to ensure AI reliability and accuracy. Encourages ongoing evaluation and updates to AI models to align with evolving ethical and technological standards.

Services Focus

Sectorial Frameworks (NIST, PCI, TISAX, SOC, ...)



Industry-specific Compliance
Ensures organizations adhere to sector-specific security and risk management requirements. Provides structured frameworks for IT security, data protection, and operational resilience.

Risk Management & Cybersecurity
Implements robust security measures based on industry best practices (e.g., NIST Cybersecurity Framework). Identifies and mitigates vulnerabilities, reducing the risk of cyber threats and data breaches.

Data Protection & Privacy
Ensures secure handling of sensitive data under standards like PCI DSS (for payment security) and TISAX (for automotive security).Establishes access controls, encryption, and monitoring to safeguard critical information.

Continuous Monitoring & Improvement
Helps organizations achieve certifications such as SOC 2 for service providers, ensuring trust and compliance. Encourages regular audits, assessments, and process improvements for maintaining security standards.

Other Services...

01

ISO9001 QMS

Ensures consistent product and service quality by improving processes and customer satisfaction.

02

ISO14001 EMS

Helps organizations reduce their environmental impact and improve sustainability practices.

03

ISO45001 OHSMS

Creates safer workplaces by reducing risks and improving employee well-being.

04

ISO22000 & GFSI

Ensures safe food production and compliance with global safety standards.

05

ISO50001 EnMS

Optimizes energy use, reduces costs, and enhances efficiency for long-term sustainability.

06

ISO13485 MD-QMS

Ensures medical devices meet regulatory requirements and maintain high safety standards.
